ABOUT ME

HELLO

First off, thank you for checking out my portfolio. Photographing weddings is an honour for me and I am passionate about creating stunning photographs that capture the raw emotions and vibrant energy of your wedding day.

I believe that trust within the photographer and couple relationship is essential to making heartfelt images. The personal connection I have with my couples forms a bond that allows their organic personalities to shine through in their photographs. I've had the pleasure of working with some extraordinary people and I'm fortunate to now consider them friends. I'm sure they would tell you of all the laughs we had throughout their day.

I look forward to documenting your day
